Transparency and information document

ESG information can help investors integrate non-financial sustainability considerations into their investment process. The ESG metrics in this document are for transparency and information purposes only and do not constitute promotional material. However, the presence of ESG ratings should not be taken as an indication of how and whether ESG factors will be integrated into the Sub-Fund.

The Sub-Fund can apply ESG criteria from one or more external ESG data providers, which may be incomplete, inaccurate, different or unavailable. Therefore, there is a risk that the Management Company may incorrectly assess a security or issuer, resulting in a security being wrongly included in or excluded from the Sub-Fund's portfolio. The use of ESG criteria may affect the performance of the Sub-Fund and therefore the Sub-Fund may perform differently compared to similar funds where such criteria are not applied. Where ESG exclusion criteria are set out in the investment policy of an ESG Fund, this may result in that Sub-Fund refraining from purchasing certain securities even though it would be advantageous to do so or selling securities on the basis of their ESG characteristics even though it may be disadvantageous to do so. In order to evaluate a security or an issuer on the basis of ESG criteria, the Management Company relies on information and data from third party ESG providers, which may be incomplete, incorrect or unavailable. Therefore, there is a risk that the Management Company may incorrectly value a security or issuer. There is also a risk that the Management Company may not correctly apply the relevant ESG criteria or that the Sub-Fund may have indirect exposure to issuers that do not meet the ESG criteria used by the Sub-Fund. Neither the Sub-Fund nor the Management Company nor the Asset Managers make any representation or warranty, express or implied, as to the adequacy, correctness, accuracy, fairness or completeness of any such ESG assessment.
